Motivation for changes to KZNSJ constitution

The current constitution calls for the formation of two committees namely a council and an executive committee. The current committee have found this to be impractical as the same people invariably will sit on both committees.

It is therefore proposed that the constitution be amended as follows:

- Removal of all references to the executive committee and have a requirement for a council only
- The duties of both be combined into one
- Council will be duly elected by the members of KZNSJ based on nominations received from the members.

Please find attached the proposed amended constitution
