ARTICLE D36 RECOMMENDED DIMENSIONS OF OBSTACLES AND SPEEDS

In order to obtain conformity of standards it is strongly recommended that courses should be set up in accordance with the following table:

The "Spread of Fences" refers to oxers and may be increased for Liverpool and triple-bar type fences. At competitions below 1.20m it is strongly recommended that obstacles have clearly defined ground lines. Courses for the various levels should always be built at the recommended dimensions unless conditions, going and/or terrain necessitate deviation.
