CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The Fédération Equestre Internationale (FEI) expects all those involved in International Equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses' welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and Athletes must be fit, competent and in good health, before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the Event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper Veterinary care, competition injuries, euthanasia, and retirement.
5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.

AHS and EQUINE FLU REGULATIONS

1 African Horse Sickness (AHS)

African Horse Sickness is a controlled disease in South Africa; therefore, any suspicion of a clinical case of AHS anywhere in the country must be reported to the local State Veterinarian immediately.

Symptoms of AHS include high temperature, rapid breathing, coughing followed by a frothy fluid from the nostrils and death within a few hours. In less acute cases, swelling of the neck and head particularly above the eyes and redness of the mucous membranes.

1 African Horse Sickness Zones

The Republic of South Africa has been divided into four zones, namely:

- 1 AHS Free Zone
- 2 AHS Surveillance Zone
- 3 AHS Protection Zone
- 4 AHS Infected Zone.

All Equines in South Africa except in the AHS Free and Surveillance Zones are required to be vaccinated against AHS annually, with an effective remedy registered in section 1, of Act 101 of 1965.

Equines residing in the AHS Free and AHS Surveillance Zones require permission from the State Directorate for vaccination against AHS.

All equines residing in the AHS Protection and Infected Zones must be vaccinated annually against AHS.

In the AHS Free, Surveillance and Protection Zone vaccination is only allowed between 1st June and 31st October of each year.

Whilst it is not a requirement that horses in the AHS Infected Zone be vaccinated between 1st June and 31st October it has been strongly recommended.

Therefore, the SAEF AHS Vaccination Requirements are as follows:

1 All Equines competing in SAEF events are required to have an annual AHS vaccine with a vaccine registered under Act 101 of 1965. The vaccine consists of AHS 1 and AHS 2. The vaccine has to be administered by a registered Veterinarian, registered with the South African Veterinary Council with a minimum period of 21 days between the two vaccines.

2 The Vaccine and batch number must be written in the appropriate vaccination page and signed and stamped by the Veterinarian administering the vaccine.

3 Horses residing in the AHS Free, Surveillance and Protection Zones may only be vaccinated between 1st June and 31st of October each year.

4 Horses that reside in the AHS Free and Surveillance Zones and participate in events in these Zones only are exempt from the necessity of annual AHS vaccination. However, if they wish to compete in the AHS Protection or AHS Infected Zones, they must be vaccinated.

5 AHS vaccinations that are given with an interval of less than the minimum 21 days are null and void for both vaccinations and horses that have received such vaccinations will be deemed not to have been vaccinated.

No horse may compete for 7 days following any vaccination.

Equine Influenza (EI)

1. All Horses participating in SAEF Events must be vaccinated against Equine Influenza

2. An initial Primary Course of two vaccinations must be given; the second vaccination must be administered within 21-92 days of the first vaccination.

In completing the primary course of the vaccinations, the vaccine must be the same manufacturer for example you initially vaccinate with Proteq the second must be the same.

3. The First Booster must be given within 7 calendar months following the date of administration of the second vaccination of the primary Course.

All horses that were certified as correctly receiving the Primary Course prior to 1 January 2005 (under previous regulations), are not required to fulfill the requirement for the First Booster, providing there has been no lapse in their vaccination regime.

4. Booster Vaccinations

a) The minimum booster frequency is every 12 months.

b) However, for Horses competing, the last Booster must have been given within 6 months +21 days (and not within 7 days) before arrival at the Event.

Equine Influenza Vaccination Requirements

Vaccination	Protocol	Eligibility to Enter Venue
Primary Course	I. 1st Vaccination: day 0 (e.g., 1 March 2014). II. 2nd Vaccination: day 21-92 (e.g., 1 April 2014).	Horses that have only received the first vaccination of the primary course are not allowed to compete or enter the FEI stables. Horses that have received the primary course can compete provided that the vaccine has not been given within 7 days of arriving at an event venue
First Booster	Within 7 months of the 2nd vaccination of the Primary Course (e.g., 1 October 2014).	Horses must have been vaccinated to comply with the requirements for the Primary Course Horses that received their primary course before 2005 are exempt from the first booster requirement within 7 months. Subsequent boosters are to be given at intervals of no later than 1 calendar year after the primary course. Horses can compete for up to 6 months +21 days after the 2nd vaccination of the Primary Course, however they cannot compete if they have been vaccinated within 7 days of arriving at an event venue. (e.g., may enter venue after 8 October 2014).
Subsequent Boosters	III. MINIMUM: within one year of previous booster vaccination. COMPETING: must usually be in the 6 months +21 days of previous booster vaccination.	Horses must have been vaccinated to comply with the requirements for the Primary Course, First Booster and all subsequent boosters. Horses must have been vaccinated within 6 months +21 days of arriving at the Event however they cannot compete if they have been vaccinated within 7 days of arriving at an event venue.
