**CODE OF CONDUCT - FOR THE WELFARE OF THE HORSE**

The Fédération Equestre Internationale (FEI) expects all those involved in International Equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses' welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and Athletes must be fit, competent and in good health, before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the Event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper Veterinary care, competition injuries, euthanasia, and retirement.
5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.

### **FEI CSI-W Competitors - REMINDER**

Ensure you have the FEI Horse App, comply with the FEI horse health requirements. Don't forget to load your temperatures 2 x a day – **THREE DAYS BEFORE THE START of the National SHOW till show end.** Horses and Riders to be registered with the FEI for 2026 – contact Robyn at SAEF for any queries regarding FEI registrations or FEI passports. [Fei.admin@saef.org.za](mailto:Fei.admin@saef.org.za) (011 468 3236)

Anyone competing in FEI competitions must use the FEI HorseApp to upload documents, record horse temperatures and certify the health status of their horse(s). All athletes, grooms, vets, officials, organising committees, endurance trainers and owners need to be aware of the horse health requirements and use the FEI HorseApp to fulfil these requirements in accordance with the FEI 2025 Veterinary Regulations for all FEI events both in the UK and worldwide. Violations and sanctions are in place for failure to submit the correct data on time, which are connected to the horse profile and not the athlete. This is important to note in the event of a horse being ridden by multiple riders. All sanctions will be sent to the Person Responsible, so it is vital that they submit all the required data. There are different views and different types of data to be captured within the app depending on who you are. In accordance with the FEI Veterinary Regulations 2026, a number of horse health requirements have been put in place to protect FEI horses and global equestrian sports from the consequences of infectious diseases being transmitted before, during and after FEI events. This provides reassurance of the high health of sporthorses to global, continental and national veterinary authorities and organisations, and will maintain and further improve the conditions for international movement of sporthorses.

The FEI HorseApp now records all equine influenza vaccination details.

**More information can be found on the FEI website: [FEI horse health requirements](#)**

## AFRICAN HORSE SICKNESS (AHS)

African Horse Sickness is a controlled disease in South Africa, and as such the State Veterinary Department must be notified of any positive cases. According to the Government “Animal Diseases Act 35 of 1984” all Equidae must be vaccinated against AHS annually, (except in the controlled AHS Zones of the Western Cape)

The only vaccine currently registered in terms of Fertilizers, Farm Feeds, Agricultural Remedies and Stock Remedies Act 1947 (Act no 36 of 47) for AHS and therefore the only efficient/effective remedy “as described above is the live virus vaccine produced by Onderstepoort Biological Products (OBP).

For Competition purposes the following apply:

- i) As per the directive issued on the 8<sup>th</sup> August 2024, for competition purposes in the AHS infected zone, horses must have received at least ONE AHS Bottle 1 and one AHS bottle 2 vaccine between 1 June 2022 and 1 December 2025
- ii) From 1 December 2025 for competition purposes in the AHS infected zone, horses must have received at least one AHS 1 and one AHS 2 vaccine in a calendar year. (i.e. between 1 January and 31<sup>st</sup> December each year)
- iii) Horses residing in the AHS Controlled area within the AHS free and surveillance zones of the Cape do not require AHS vaccination in order to compete. However, should these horses leave the AHS controlled area, they will require vaccination against AHS as described in i) and ii) above.

*For movement into the AHS controlled area of the Western Cape, a horse must have received its AHS vaccinations within 24 months of entry. Any changes to this requirement will be communicated by DALRRD and is outside the administrative control of SAEF.*

- iv) Horse residing within the AHS protection zone require AHS vaccination in order to compete both within the AHS controlled area and, within the AHS infected zone as described in i) and ii).
- v) The only accepted registered vaccine for competition purposes is the Onderstepoort Biological Products vaccine, as it is currently the only registered vaccine against AHS in terms of the "Farm Feeds, Agricultural Remedies and Stock Remedies Act 1947 (Act 36 of 47)
- vi) AHS vaccines must be supplied and administered by a registered veterinarian, who is required to sign and stamp the passport as part of the vaccination certification.
- vii) The current AHS vaccine is an attenuated live vaccine supplied in 2 bottles AHS1 and AHS2. The two vaccine bottles must be administered at least 3 (three) weeks apart. If vaccines are given less than 3 weeks apart, both vaccines are invalidated, making the horse ineligible to compete and compromising its welfare.  
**Research has shown that leaving a longer interval between vaccines is better for producing greater immunity.**
- viii) In the AHS infected zone, it is strongly recommended that horses are not vaccinated during periods of high midge prevalence due to the risk of vaccine virus transmission by the midge vector.
- ix) **AHS vaccination is only allowed in the AHS controlled area between 1<sup>st</sup> June and 31<sup>st</sup> October each year due to the transmission risk. Owners wishing to have their horses vaccinated against African Horse Sickness in the Free and Surveillance zones of Western Cape for competition purposes outside the 2 zones, must contact the state vet in the Western Cape for permission to vaccinate.**  
**As per 24<sup>th</sup> June 2025 SAEF AHS Directive: Check SAEF for any updates as they are closely monitoring the situation.**
